

The Impact of Opioid Overdose on Public Safety in Fort Worth

A Cooperative Relationship

FORT WORTH_®

Impact of Opioids in Fort Worth Introduction

- Addiction is a re-lapsing brain disease
- It impacts an entire community.
- Fort Worth does not appear to be as impacted as the Midwest
- Our goal is to proactively address and mitigate issues before they become an issue here
- Recovery Resource Council hosted a Recent Addiction Recovery Luncheon that focused on the impact of addiction and opioids in Fort Worth
- Opportunities to work in collaboration now to prevent the impact felt throughout the Midwest
- There are two generations impacted by this issue

What other cities are experiencing with opioid's – Columbus, OH

- Ohio is experiencing 5000 annual deaths from opiates since 2014
- Columbus 8-12 overdoses a day
- 2-3 fatalities a week
- · Many factors that impacted the issue
 - · Social Determinants of health care
 - Zip codes where overdoses occurred were consistent with infant mortality, prostitution, gun violence, poverty, etc.
- Budget impact to fire and police RREACT Program (Rapid Response)
- · Cooperation among agencies had to be developed
- Stood up a stand alone receiving facility for overdose patients
- · Stood up a drug court to specialize in the issues of addiction
- Ohio is loosing two generations and dealing with potential long term health issues

Fort Worth Police Combined Approach to Targeting Opioids

- Partnered with the DEA and created a Tactical Diversion Squad
- Office of Diversion Control's Mission = Prevent, detect, and investigate the diversion of controlled substances from legitimate sources
 - Target doctors who prescribe opioids outside legitimate medical purposes
 - Pharmacies operating outside normal practices
 - Pill mill operations
 - Pharmacy burglary rings
 - Prescription forgery groups
 - Clandestine lab operations
 - Illegal importation of controlled substances form overseas sources

Fort Worth Police Combined Approach to Targeting Opioids

- Narcan which is an opioid antagonist used for the complete or partial reversal of opioid overdose, including respiratory depression.
- Narcan has been issued to:
 - SWAT-Gang-Narcotics-Vice
 - SRT
 - Property Room
 - Jail (on a volunteer basis)
 - Property Crime Units & Bike Unit (on a volunteer basis)
 - Classes are now being offered to Patrol Officers (on a volunteer basis)

5

FORT WORTH®

Fort Worth Police Combined Approach to Targeting Opioids

- Fort Worth Tactical Medic Unit
 - all FWPD Tactical Medics have Narcan medication
 - In 2017 they administered two (2) doses and in 2018 they administered one (1) dose
 - Currently in 2019 one (1) dose has been administered
 - Narcan cost \$41.25 per unit and \$30.00 for the Pelican Micro Case
 - Each officer carries two (2) doses and is required to attend a 2-hour training class

Fort Worth Police Diversion Task Force – Results

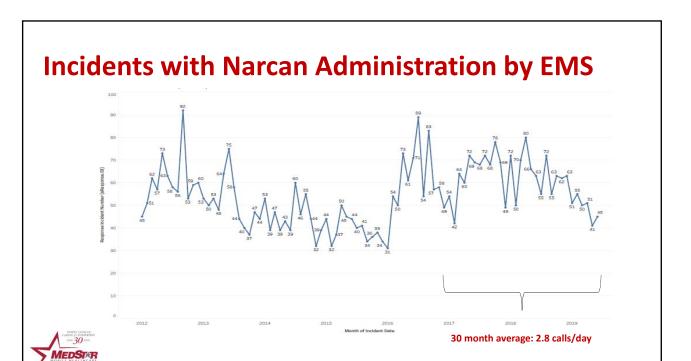

- Identified and executed search warrants on six (6) Doctors' offices/residences
- Investigated approximately 29 Pharmacies for regulatory violations
- Approximately 30 undercover operations have been conducted related to opioids
- Investigated one (1) overdose death related to overprescribing by doctor (pending judicial)
- Multiple arrest and prosecutions (or pending prosecution)
 - 4 Doctors- Arlington, Garland, Brownfield
 - 1 doctor's office employee- Granbury
 - 5 individuals in distribution ring- Burleson
 - 1 EMT- Fort Worth
 - · 4 individuals for prescription forgery- Fort Worth

-

FORT WORTH.

Fort Worth Police Diversion Task Force – Results continued

- Two (2) Pharmacists surrendered their DEA registrations-can no longer issue controlled substances
- **Eight (8) doctors** surrendered their DEA registrations-can no longer issue prescriptions for controlled substances
- A **combined \$460,000 in fines** have been paid by Doctors and Pharmacies
- \$3.6 million in US currency has been seized in FY 2019
- 56 kilos of Pharmaceutical drugs have been seized
- 676 dosage units of (liquid) Pharmaceutical drugs have been seized
- Tactical Diversion Squad and Diversion support the National Drug Prescription Drug Take Back program
- 118,761 pounds of medications were turned in and destroyed from the Division area

2019 Narcan Administration Protocol Update

Subject: Indications for Naloxone (Narcan) Administration

Directive

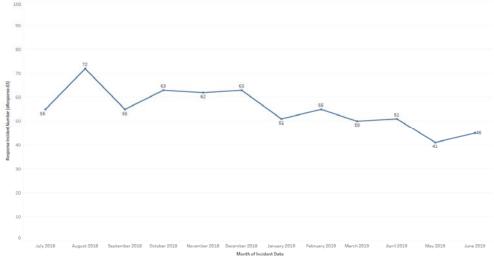

Effective immediately for all levels:

- Naloxone should only be administered when opiate intoxication is suspected based on known or suspected opiate overdose, AND the presence of all three of the following:
 - Miosis (pinpoint pupils)
 - o CNS depression
 - Respiratory depression
 - i.e. RR <10, SpO2 <92%, and/or EtCO2 >45 mmHg
- Naloxone should not be given to patients who are awake, talking, not displaying significant respiratory depression, or displaying CNS depression or pinpoint pupils in isolation.
- Cardiac arrest is not an indication for naloxone administration, as there is no clinical benefit.

"Profile" Stats: July '18 - June '19

- 663-Responses
 - o 22-DOS w/ resuscitation attempted
- 619 Transported to the ED (93%)
- Average Age = 49
 - o Youngest = 6
 - o Oldest = 99
- 59% Male
- Average dose per patient = 1.16mg

Community Partnership - Opioid

- MHMR SAMHSA Grant
- Goals: Refer / Rehab / Recovery
 - o Purchase and distribute Naloxone
 - First Responders
 - Family members of 'At-Risk' patients
 - o 2 Training videos Distributed in January '18
 - First Responders correct use of Narcan
 - Patients/family members/care givers correct use of Narcan & counseling/education
 - Share data regarding overdose victims

Impact of Opioids in Fort Worth

Strategies

- We can't arrest our way out of this problem
- · Hospitals don't have the capacity to treat and admit everyone
 - In-patient bed availability and Elopement after arrival in Emergency Department
- Naloxone saves lives Has to be immediately available It is not enabling
- Notification system for surges and spikes in overdoses
 - Common agreed upon messaging and communication plans
- Safe housing has to be a part of the conversation for long term recovery
- We have to meet people where they are in their recovery and have resources available when they are ready to start recovery

It is a community problem that takes a community solution to solve.
