Mechanical Compression Device Quality Improvement Project Charter

Problem:

Mechanical Compression Device (MCD) use in the pre-hospital setting has increased dramatically in this system within the past six months. We currently track CPR performance data for the system, and have observed some common issues with application and performance of these devices causing our system to fall below current CPR performance goals. Specifically, the CPR pause associated with application of the MCD does not meet our current standard and the MCD appears to travel ("MCD Walk") on the patient during use causing compressions to be delivered at an inadequate depth. Additionally, the role of code commander has not been adequately established in the system and has been a point of confusion for crews performing resuscitation.

Rationale:

MCD application in cardiac arrests has increased from 18.6% in January to 84.7% in November. November MCD Performance:

- 91% failed to meet the goal of <10 second application time
- 43.4 % of MCD placements demonstrated "Walk" during the resuscitation
- 4.8% of placements were error free, as defined by <10 second application time and no "MCD walk".

Expected Outcomes and Benefits:

If successful this project will improve MCD placement time, will resolve the incidence of MCD walking, and will improve how cardiac arrests are managed within the system. This project will also improve the skill level of providers who are performing MCD placement. Lastly, this project will give insight into the unique challenges of pre-hospital cardiac arrest management involving MCDs.

AIM:

To reduce errors associated with mechanical compression device placement and management during cardiac arrests by 25% in 6 months

Change Theories:

| CHANGE: | DESCRIPTION | PHASE: |

Metropolitan Area EMS Authority dba MedStar Mobile Healthcare Finance Report – February 28, 2021

The following summarizes significant items in the February 28, 2021 Financial Reports:

Statement of Revenues and Expenses:

Month to Date: Net Income for the month of February 2021 is a loss of (\$508,363) as compared to a budgeted loss of (\$263,323) for a negative variance of (\$245,039). EBITDA for the month of February 2021 is a loss of \$173,726) compared to a budgeted gain of \$50,697 for a negative variance of (\$245,039).

- Transport volume in February ended the month 100% to budget. Total Patient Encounters ended the month at 99.8% to budget.
- Net Revenue in February is 96.4% to budget. Percentage of Insurance and Medicaid customers is down 0.97% and 2.44% respectively and percentage of Self Pay customers is up by 2.18%. The payer mix changes equates to an additional \$260K in contractual and allowances taken this month.
- Total Expenses ended the month 102.5% to budget or \$104,694 above budget. In February,
 MedStar incurred additional expenses in Salaries, \$252K, and Medical Supplies, \$61K, due to the
 weeklong freeze and snowstorm. The overage is partially offset by lower than expected
 expenses for fuel, computer maintenance and professional fees.

Year to Date: EBITDA is \$1,385,083 as compared to a budget of \$875,935 for a positive variance of \$509,147.

- The main drivers for this positive variance are a positive YTD variance in total expenses of \$438,357, YTD patient encounters are at 99.8% to budget, the one-time CARES Act distribution from the COFW of \$606K and a CARES Act Provider Relief payment of \$584K.
- While the YTD patient encounters are at 99.5% to budget, the payer mix of Commercial Insurance is below budget and Self Pay is above budget leading to additional contractual allowances and provision for uncollectable accounts of \$3,275,153 or 6.1% above budget.

Key Financial Indicators:

- Current Ratio MedStar has \$8.13 in current assets (Cash, receivables) for every dollar in current debt. (Goal: a score of \$1.00 would mean sufficient current assets to pay debts.)
- Cash as % of Annual Expenditures The Restated Interlocal Cooperative Agreement mandates 3 months of operating capital. As of February 28, 2021 there is 5.8 months of operating capital.
- Accounts Receivable Turnover This statistic indicates MedStar's effectiveness in extending
 credit and collecting debts by indicating the average age of the receivables. MedStar's goal is a
 ratio greater than 3.0 times; current turnover is 4.74 times.
- Return on Net Assets This ratio determines whether the agency is financially better off than in previous years by measuring total economic return. An improving trend indicates increasing net assets and the ability to set aside financial resources to strengthen future flexibility. Through February, the return is (0.47%).

MAEMSA/EPAB cash reserve balance as of February 28, 2021 is \$475,470.69.

About Trailing Interest

Total Interest Charged for this Period

You may see interest on your next statement even if you pay the new balance in full and on time and make no new charges. This is called "trailing interest". Trailing interest is the interest charged when, for example, you didn't pay your previous balance in full. When that happens, we charge interest from the first day of the billing period until we receive your payment in full. You can avoid paying interest on purchases by paying your balance in full and on time each month. Please see the "When we charge interest" sub-section in your Cardmember Agreement for details.

Strategic Integration Summary March 2021

Alternate Payment Models

- ET3 Model starting on April 5, 2021
 - o Inaugural ET3 Steering Committee met this month.
 - Most hospital CEOs, and community partners on the committee
 - Sen. Kolkhorst introduced the Budget Rider in the Senate to require HHSC to adopt the ET3
 payment model.
 - She also sponsored a Senate Bill requiring the same.
 - Rep. Mando Martinez has introduce a House Bill for Community Paramedicine, including the ET3 model payment model.
- American Rescue Plan Act signed into law.
 - Contains authorization for CMS to issue a waiver to pay for treatment in place for PHE related non-transports if part of a community-wide protocol to preserve healthcare system capacity.
 - MedStar part of the team CMS reached out to help craft the waiver.
- Continuing to work with Amerigroup, BCBS, CIGNA, and Cook Children's Health Plan on agreement for payment for alternate <u>dispositions</u>.
- Started dialog with Southwestern Health Resources to engage in ET3 model payment for their full risk population with Humana and UnitedHealthcare.

StarSaver+PLUS:

Working on expanding the model for StarSaver benefits plus MedStar on Demand services

Tiered System Response Pilot

- Launched 2/1/21
- Task Force Reviewing Data bi-weekly
- Recent Outcomes attached
 - o 92 BLS ambulance 911 responses
 - o 82 patients assessed
 - 38 transported to area facilities
- Experience surveys extremely positive

COVID Vaccines

- Mobile (pop-up) vaccine clinics ongoing in cooperation with Fort Worth
 - o 2,240 initial doses and 481 2nd doses administered.

COVID Antibody Infusion Program

- Amerigroup program set up completed.
- Awaiting first referrals
- Confirmed with CMS that mAb infusions will be covered by Medicare.
 - Including uninsured through the HRSA uninsured care fund.

<u>Medicaid Ambulance Supplemental Payment Program – ASPP</u>

- HHSC approved plan to include Medicaid MCOs in the program moving forward.
- PCG beginning cost data collection for this year's allocation based on Average Commercial Reimbursement (our recommendation) as opposed to strictly cost-based (historic).

<u>Treatment in Place Model – AMA Pilot</u>

- Program continues to work well

Comments Submitted:

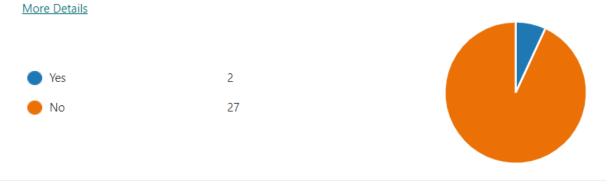

- Medstar's crew was great as always. Carrington Steward's crew is always awesome to work with!
- Worked well for an MVA with no injuries.
- "The crew did a great job. Thank you for all that you do.
- Sgt. A. Sheehan, EMT-P, Westover Hills Police Department"
- Everything went well.

MedStar Crew Surveys – (31 completed)

4. Experience with the Co-Response agency personnel More Details

5. Did the patient require any ALS interventions and/or ALS intercept?

6. If "Yes"; what type of ALS Care was initiated?

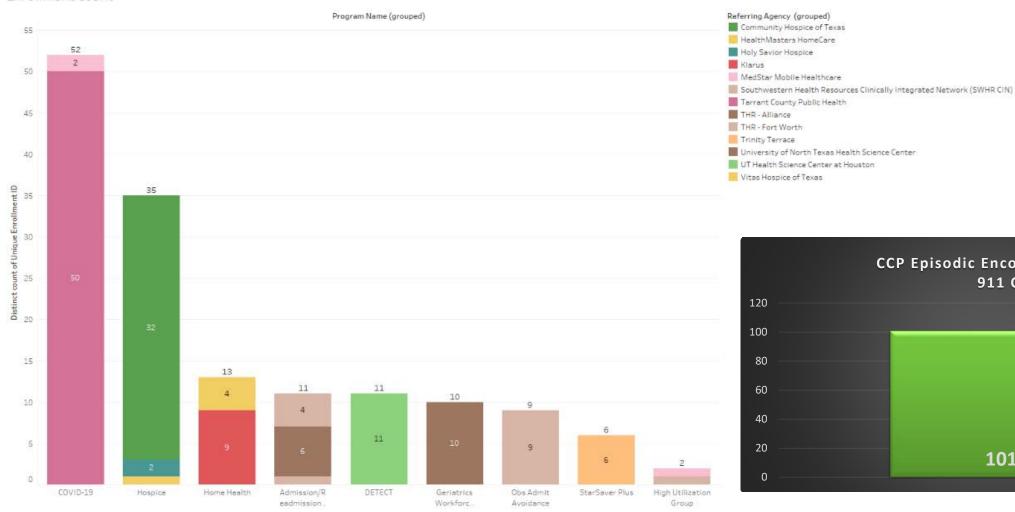

Note: 1 BLS response w/crew questions about whether the patient would have benefited from ALS care. OMD reviewed.

MedStar Survey Response Comments:

- No patient at scene.
- P3 psych, no FD, no staging, PD arrived and stayed till we transported.
- Patient was transported safely without other interventions for the care he needed.
- Call was check on the welfare and the patient was not home. All units cleared. No patient contact.
- I love the idea of 911 BLS. I think it's a great way to help out our community get the appropriate health care by keeping the ALS units available for calls that require more ALS interventions. I think an EMT-B at Medstar has had the appropriate training by our amazing OMD team to handle BLS calls. I also think it's a great way to help with staffing.
- FD was on scene flushing eyes, patient symptoms resolved enough that mother refused any further care from EMS, we took the refusal as transport unit. Resupplied FD to be available. Worked and communicated well!
- FRO OS provide vitals and info to help expedite clearing.
- Went very well fire assisted with movement of patient and transported in a timely manner. ALS was put on the ticket but canceled on scene due to patient being stable.
- No one complained of any pain, it was 100% BLS. Love the idea of 911 BLS.
- I believe it will be a good system, less busy when there are more trucks at once.
- I think the BLS response was appropriate.
- No ALS Was avail, dispatch advised they were holding 25 calls. BLS only to the hospital.
- No patient found and no interaction with fire.
- Great working with BFD, no ALS interventions required, Paramedic on scene.
- Medstar was first on scene, gathered scene size up and responded to dispatch with 3 green PTs and no
 additional resources needed. Fort Worth Fire assisted with blocking traffic and obtaining 1 RAS while Medstar
 obtained 2 AMAs.
