 dba MedStar Mobile Healthcare
## Board of Directors

October 26, 2022

Date and Time: October 26, 2022, at 10:00 a.m.
Location: MedStar Board Room, 2900 Alta Mere Drive, Fort Worth, TX 76116
The public may observe the meeting in person, at https://meetings.ringcentral.com/j/1460910582 , or by phone at (469) 445-0100 (meeting ID: 1460910582 ).

AGENDA
I. CALL TO ORDER

Dr. Janice Knebl
II. INTRODUCTION OF GUESTS

Dr. Janice Knebl
III. CITIZEN

PRESENTATIONS
IV. CONSENT AGENDA

BC-1533

BC-1534

- 1534

Members of the public may address the Board on any posted agenda item and any other matter related to Authority business. All speakers are required to register prior to a meeting using the link on the Authority's website, (see, http://www.medstar911.org/board-ofdirectors/ where more details can be found, including information on time limitations). The deadline for registering is $4: 30$ p.m. October 25 , 2022. No person shall be permitted to speak on an agenda item or address the Board during Citizen Presentations unless they have timely registered and have been recognized by the Chair.

Items on the consent agenda are of a routine nature. To expedite the flow of business, these items may be acted upon as a group. Any board member may request an item be removed from the consent agenda and considered separately. The consent agenda consists of the following:

Approval of Board Minutes for September 28, 2022 Dr. Janice Knebl Pg. 1

Approval of Check Register September
Dr. Janice Knebl Pg. 5
V. NEW BUSINESS

BC - $\mathbf{1 5 3 5} \quad$ Approval of Ambulance Surplus Kenneth Simpson

BC - $\mathbf{1 5 3 6} \quad$ Purchase of Deployment Software Kenneth Simpson

BC - $\mathbf{1 5 3 7} \quad$ Annual Review of Executive Performance Dr. Janice Knebl and Compensation

## VI. MONTHLY REPORTS

Dr. Janice Knebl

## VIII. CLOSED SESSION

The Board of Directors may conduct a closed meeting in order to discuss matters permitted by any of the following sections of Chapter 551 of the Texas Government Code, including but not limited to any item on this agenda:

1. Section 551.071: To seek the advice of its attorney(s) concerning pending or contemplated litigation or a settlement offer, or on any matter in which the duty of the
attorney to the Board and the Authority to maintain confidentiality under the Rules of Professional Conduct of the State Bar of Texas clearly conflicts with the Open Meetings Act, including without limitation, consultation regarding legal issues related to matters on this Agenda;
2. Section 551.072: To deliberate the purchase, exchange, lease, or value of real property if deliberation in an open meeting would have a detrimental effect on the position of the Authority in negotiations with a third person.
3. Section 551.074: To (1) deliberate the appointment, employment, evaluation, reassignment, duties, discipline, or dismissal of an Authority officer or employee; or (2) to hear a complaint or charge against an officer or employee; or
4. Section 551.089: To deliberate security assessments or deployments relating to information resources technology; network security information; or the deployment of, or specific occasions for implementation, of security personnel, critical infrastructure, or security devices.

The Board may return to the open meeting after the closed session and may take action on any agenda item deliberated in the closed session.

## MINUTES

# METROPOLITAN AREA EMS AUTHORITY DBA MEDSTAR MOBILE HEALTHCARE BOARD OF DIRECTORS REGULAR MEETING 

## Meeting Date and Time: September 28, 2022, at 10:00am

The Metropolitan Area EMS Authority Board of Directors conducted a meeting at the offices of the Authority, with some members participating by video conference call pursuant to Section 551.127(c) of the Texas Government Code. The public was invited to observe the meeting at that location, or by phone or video conference.

## I. CALL TO ORDER

Chair Dr. Janice Knebl called the meeting to order at 10:02 a.m.
Board members participating through video conferencing: Dr. Chris Bolton, Dr. Brad Commons, Councilman Carlos Flores, Fire Chief Doug Spears, Bryce Davis, Teneisha Kennard, and Dr. Veer Vithalani (Ex-officio). Board members physically present were Chair Dr. Janice Knebl, Susan Alanis, and Ken Simpson (Ex-officio). Others present were General Counsel Kristofer Schleicher, Chris Cunningham, Leila Peeples, Dwayne Howerton, Steve Post, Matt Zavadsky, and Chad Carr.

Guests on phone or in person as attendees: Dr. Angela Cornelius, Dr. Brian Miller, Fire Chief Brian Jacobs, Fire Chief Jeff Ballew, Andrew Malone, Anita Meadows, Blair Brame, Bob Strickland, Bradley Crenshaw, Brian White, Cerenity Jenkins-Jones, Chris Roberts, Desiree Partain, David Cooke, Diana Anderson, Joleen Quigg, Jose Talavera, Kerby Johnson, Kier Brister, Lindy Curtis, Maerissa Thomas, Matthew Willens, Michael Griffith, Misti Skinner, Monica Cruz, Nancy Cychol, Pete Rizzo, Ricky Hyatt, Susan Swagerty, Tyler Stein, Valerie Washington, Whitney Morgan, and Will Mercer.

Dr. Janice Knebl introduced Fort Worth City Manager, David Cooke, and Fort Worth Assistant City Manager, Valerie Washington. Mr. Cooke and Ms. Washington will be providing an overview of the Fort Worth Staffing Study conducted by CityGate.

Desiree Partain introduced Matt Vereecke and Erin Buck from The Jordan Elizabeth Harris Foundation. The MedStar Foundation and The Jordan Elizabeth Harris Foundation collaborated to raise funds through the MedStar Foundation Clay Shoot, totaling approximately $\$ 25,312.00$. Desiree Partain presented a check of approximately $\$ 12,656.00$ to The Jordan Elizabeth Harris Foundation.

Dr. Brian Miller introduced JPS physician resident, Dr. Beyer.

## II. CONSENT AGENDA

BC-1528 Approval of Board Minutes for August 24, 2022
BC-1529 Approval of Board Minutes for September 14, 2022
BC-1530 Approval of Check Register for August

The motion to approve all items on the Consent Agenda was made by Doug Spears and seconded by Dr. Chris Bolton. The motion carried unanimously.

## III. NEW BUSINESS

## BC-1531 Approval of 2023 Meeting Dates

The motion to approve was made by Doug Spears and seconded by Carlos Flores. The motion carried unanimously.

## BC-1532 Approval of purchase of Additional UEScopes for Fort Worth Fire Department

The motion to approve was made by Doug Spears and seconded by Dr. Brad Commons. The motion carried unanimously.

IR - 228 Overview of Fort Worth Staffing Study
Following the closed session noted below, Fort Worth City Manager David Cooke reviewed the City of Fort Worth Fire Department Staffing Study for the Board. Mr. Cooke and Ms. Washington answered questions from the Board.

## IV. MONTHLY REPORTS

A. Chief Executive Officer- Ken Simpson referred to Tab A and informed the Board that we are actively working with the Re prioritization subcommittee to schedule our next meeting. Fort Worth City Manager, David Cooke, and Jessica Rangel with UNTHSC participated in the last EMS System Performance subcommittee meeting. We have been working with our outside billing vendor and have seen some improvement with their performance. We were awarded an Assistant Firefighters Grant totaling under a million dollars, including our match. The MAEMSA Budget Workshop is scheduled for October 19, 2022.
B. Office of the Medical Director- Dr. Veer Vithalani referred to Tab B and informed the Board that his office has been focusing largely on re-prioritization, ensuring the data is clean and accurate. We are continuing our quarterly CE. EPAB approved an updated set of clinical policies at their last meeting.
C. Chief Transformation Officer- Desiree Partain referred to Tab C and informed the Board that we are continuing efforts to reduce hot vehicle operations, surveying FRO perception, and are building a survey to send out to the community and our media partners.
D. Chief Financial Officer- Steve Post reviewed the financials with the Board and referred to Tab D. Ken Simpson informed the Board that they would receive the annual letter from the auditors providing an overview of what will be reviewed.
E. Chief Human Resources Officer- Leila Peeples referred to Tab E and informed the Board, that we have completed all implementation projects for HRIS and will be shifting focus to employee engagement, retention, and recruitment for next fiscal year's hiring processes. FMLA leave is currently down which is due to working closely with Operations to improve healthy work/life balance.
F. FRAB- Chief Spears informed the Board that re-prioritization was the main topic of discussion, during the FRAB meeting on September $7^{\text {th }}$. Nominations were taken for officer elections but, due to a lack of a quorum, the election was moved to the next meeting. City of Lake Worth Fire Chief Ryan Arthur was nominated to be the new FRAB Chair.
G. Operations- Chris Cunningham referred to Tab G.
H. Compliance and Legal- Chad Carr referred to Tab H.
I. EPAB- Dr. Commons informed the Board, EPAB Board met last Thursday for the last time under Dr. Veer Vithalani' s leadership. The next meeting will be held with our new Medical Director, Dr. Jeff Jarvis. The EPAB Board approved a program called M.O.U.D. (Medication for Opioid Use Disorders).

## V. REQUEST FOR FUTURE AGENDA ITEMS

None.

## VI. CLOSED SESSION

Dr. Knebl called the meeting into a closed session at 10:09 a.m. under Section 551.071 of the Texas Government Code. The Board returned to open session at 10:25 a.m. No further action was taken following the closed session.

## VII. ADJOURNMENT

The board stood adjourned at 11:48 a.m.
Respectfully submitted,

## Douglas Spears

Secretary

# MAEMSA <br> BOARD COMMUNICATION 

| Date: 10.26 .2022 | Reference \#: | BC- 1536 | Title: Deployment Software |
| :--- | :--- | :--- | :--- |

## RECOMMENDATION:

It is recommended that the Board of Directors approve the purchase of the Optima Predict deployment software to assist in evaluating deployment options in the amount of $\$ 770,000$ over a five year period, which includes a $10 \%$ contingency. The amount includes purchasing the software, software set-up and integration, and staff training.

## DISCUSSION:

MedStar has utilized a single tiered deployment model for EMS response. This is typically done annually as we determine shift schedules for each calendar year. As call volumes increase and we focus on trying to deliver the appropriate care to each patient utilizing MedStar's services the deployment software needs to be more flexible and show the effect different variables have on deployment, response times, etc.
Optima has been utilized by Austin-Travis County, Houston, Philadelphia Fire, Lee County, Florida, and San Francisco to help determine the effect of adding resources, to help determine station locations, and to help demonstrate the effect of system changes on different response priorities. By using historical information related to all aspects of a call the software establishes a baseline for timing, road conditions, resource locations, schedules, and service levels against which variables like deployment, timing, priorities, staging locations, etc. can be made. This will allow us to better predict needed resources for various response time goals, how service level changes could impact response times, and what requirements annexations, developments, and major construction will bring.
This software is one of the first steps in painting an accurate picture of how the system needs to be resourced to assure equity of resources and understand the impacts of contemplated changes before those changes are made. As we embark on conversations with the community about the future of EMS, the needs of the system, and assuring equity in deployment it is important that we be very confident in the models we are suggesting, and this software will bring that higher degree of certainty.
Due to the amount of historical data, data complexity, and number of variables this software uses it will take 1-3 months to get up and running once purchased. An example report they produced for a customer has been included to show some of the reporting it can produce. Excerpts from some of these systems using Optima have been included. The entire consulting report from the City of Austin has been uploaded, but the relevant Optima examples can be found on pages 85-93 of the report.

## FINANCING:

MedStar has received AFG funding this year. The savings from that can be used to fund the purchase of this software and maintenance. There are initial fees totaling of $\$ 259,500$ and annual maintenance/license fees of \$88,100/year.

## Metropolitan Area EMS Authority dba MedStar Mobile Healthcare

## Chief Executive Officer's Report- September 30, 2022

Reprioritization Subcommittee/EMS System Performance- The reprioritization subcommittee will meet again on October 25, 2022. We will be further discussing the reprioritization effort, what performance metrics will be tracked, how they will be tracked, and how they will be reported. We will also be discussing the best way to implement any recommendations to be able to track and trend changes and their impact on patient outcomes for both acute and non-acute patients.

Billing/EMS $\mid$ MC- We continue to work with EMS $\mid$ MC to address issues as they occur. They have added some additional leadership, and our cash collections have been positive. Some of the payors that denied claims due to timely filing issues from November-February are agreeing to re-evaluate those claims. We are monitoring collections goals and performance and look for the improvement to continue as they achieve their goal.

Fiscal Year End- The finance team has been working tirelessly to complete the fiscal year end activities. They are preparing for our annual audit and double checking the methodology we utilize to project cash collections. We finished FY 21/22 with over 180,000 calls and over 120,000 transports. That means we exceeded our budgeted transports by $5.2 \%$ and our budgeted calls by $7.4 \%$. The call volume increases helped offset some of the expense increases we have seen, but it also meant that the system was much busier than anticipated. Leadership is working to add an additional new hire class to help reduce some of the workload.

FY 2023- While it is early in the fiscal year are seeing sustained increases in call volume over what has been projected and what we have seen in previous years. We are continuing to monitor this. Between the call volume increases and the number of organizations hiring between now and February 2023 we are also evaluating the viability of adding an additional hiring class at the end of 2022. A compensation study is currently being conducted for all positions in the organization, and we anticipate that will be completed in late 2022. Additionally, as we evaluate reprioritization opportunities, we will also be discussing different deployment options. You will see a request for software to help evaluate these options.

Ambulance Procurement- The Medix ambulances the board approved have been coming in and are getting put in service, and the crews seem happy with them. Demers provided notification to us this week that they will be unable to make their December/January delivery due to staffing issues, and they anticipate delivery in February. We are working with them on options and next steps.

## Education and Training

## Transformation Report

October 2022

## Alternate Payment Models \& Expanded Services

- Additional eligibility expanding enrollment on ET3 Model
o Full report attached
o Working with Ops Team on QI project enhance enrollments of eligible patients
- Participated as invited panelist for CMS hosted national webinar for commercial payers on 10/10/22
o Designed to educate them on the model to encourage multi-payer alignment
- Still working with BCBS on possible alternate payment model

## Reducing HOT Vehicle Operations Project

- MedStar presented research poster at national EMS World Expo Conference on patient perception of response times (attached)
o Big topic of discussion at the conference
- Continuing to track with Re-Prioritization project
o OMD/Data Analyst refining clinical outcome data based on EMD Determinant
o Goal = reduce HOT responses to $\sim 30-40 \%$ of calls
- Currently ~70\% of calls

## Balance Billing (Patient Protection Initiative)

- Texas Legislature planning to re-introduce ground ambulance balance billing issue next session
- Plans set for Texas EMS Alliance to frame 'Patient Protection' legislation for program similar to one the legislature did for physicians with arbitration
- Still awaiting formation of Congressional committee on similar topic

## Medicaid Rate Increase

- Working with Texas EMS Alliance on effort to increase Medicaid reimbursement rate
- Goal = Medicare Parity
- Last rate change, 2007

## StarSaver+PLUS

- Enrollment campaign for StarSaver+PLUS initiated (flyer attached)
o Enrollment growing - Currently ~400 StarSaver+PLUS member households

## Trick or Treat Event

- Recruiting nominations
- Great push from our media partners
o Flyer attached

## High Performance EMS Projects

- AIMHI releasing quarterly data on clinical, operational, and financial performance and structure of High Performance/High Value EMS systems
o Including system design transformation, response time goals and Medical First Response utilization
o $1^{\text {st }}$ Quarter Report attached
- Developing "EMS: Structured for Quality" guide and inform policy makers on the hallmarks and measures of effective EMS system design, implementation and evaluation based on metrics that matter for patient outcomes
o May release in partnership with ICMA

## Pink Gloves Campaign

- Pink gloves issues to on-duty units for Breast Cancer Awareness Month

## Upcoming Presentations:

| Event (location) | Date | Attendees |
| :--- | :--- | :--- |
| South Carolina EMS Leadership Conf. (Greenville, SC) | Oct 2022 | $\sim 500$ |
| lowa State EMS Conference (Des Moines, IA) | Nov 2022 | $\sim 600$ |
| Texas EMS Conference (Austin, TX) | Nov 2022 | $\sim 1,500$ |
| NAEMSP Annual Conference (Tampa, FL) | Jan 2023 | $\sim 700$ |
| North Carolina EMS Leadership Conf. (Greensboro, NC) | March 2023 | $\sim 150$ |
| FDIC/JEMSCon | Apr 2023 | $\sim 7,000$ |
| National EMS Safety Summit/Financial Symposium (Denver, CO) Apr 2023 | $\sim 300$ |  |

| Pulse Report April 5, 2021 - October 3, 2022 |  |  |
|  |  |  |
| Summary |  |  |
| Task Time Difference Telehealth Completed vs. Transport | 0:16:19 | Less Time |

Conversion Rate

Here are some great examples of ET3 at work from these MedStars the past month:

## Seth Wells, Rebecca Hoke

"MXX responded to a call at a residence for a male complaining of a possible infection of left foot since previous amputation due to poor vascular perfusion leading gangrene. Upon arrival he was A\&Ox4 and sitting in recliner. We assessed and took vitals. - see treatment plan. Patient assessment indicated patient would be a good candidate for ET3, patient accepted tele health treatment in place of transportation to ED. After a brief conversation with Doctor Saife he agreed with plan of advising patient to call his PCP in the morning with a follow up appointment for further care and administering Toradol IM to right shoulder for current pain management. The patient accepted treatment plan and agreed to contact his PCP in the morning."

## Jacob Metzger, Delena Bentley

"MedStar XX arrived and found the patient, a XX-year-old female, alert and oriented, in obvious respiratory distress, seated inside her living room. The patient's neighborhood experienced an electricity outage, resulting in difficulty in accessing her medications as her pharmacy was not open to refill them. Consequently, the patient was unable to complete her evening regiment of COPD medications and is now experiencing significant respiratory distress. The patient was wheezing bilaterally with decreased oxygen saturations, accessory muscle usage, and significantly increased respiratory effort. The patient was placed on oxygen and transferred to the ambulance via stretcher due to scene lighting/safety concerns. Once in the ambulance, the patient was provided with $2 x$ DuoNeb treatments via nebulizer with significant improvement and a return to normal baseline. The patient was also administered 125 mg of SoluMedrol IM for the long acting prevention. A telemedicine consult was completed with Dr. Safi of IES, who approved of the treatment plan and the patient remaining in place provided that she gains access to her medications via 24 hr pharmacy. The patient was advised to reactive EMS for any changes in condition."

## Daniel Vidal, Allyson Roberson

"MedStar XX arrived on scene to find a XX-year-old female with altered mentation secondary to hypoglycemia. The patient was lying in bed altered and diaphoretic. He had an initial BGL of $41 \mathrm{mg} / \mathrm{dL}$. An IV was established and 250 mL of D10\% was administered. The patient returned to his normal mentation with vitals within baseline per his wife. The patient agreed to TeleHealth. The IES physician stated that the patient is okay to stay at home and should eat a nutritious meal. The last BGL recorded was $261 \mathrm{mg} / \mathrm{dL}$. All signatures were obtained."

## Pamela Moore, Austin Walker

"Pt reports that she went to the ER at THR SW on 9/18 and was diagnosed with Sciatica. She produced paperwork that indicated they had performed a CT Lumbar and Pelvis without contrast and she was discharged with flexaril and hydrocodone/acetaminophen. Pt states she was hesitant to go back to the ER because she didn't want to go through the same thing again. Pt denies any falls or trauma that could have exacerbated the pain. Pt denies any loss of bowel or bladder control or difficulty. Pt denies any paralysis or paresthesia. Pt states she is able to walk but it is painful. Pt is observed to be a XX y/o Caucasian female in no visible distress, laying right lateral recumbent in her bed. Pt has no immediate life threats visible, ABC's intact, GCS 15. Pt vitals were unremarkable. Physical exam noted tenderness to the left lower lumbar with pain radiating down her left leg. EMS diagnosis is Sciatica. PT was met in her bedroom where vitals were assessed, physical exam was performed, and history was gathered. Pt was offered ET3 for consult and agreed. Physician was contacted via IES Mobile App and agreed with EMS plan for IM steroids today with the physician providing prescription for steroid pack over the next 5 days and pt follow up with spinal surgeon and PCP. TeleHealth physician provided orders for IM Dexamethasone 6 mg and called in prescription to pts pharmacy. Pt confirmed to have no further questions and signed necessary documentation. MXX returned to service.

MedStar saves lives.
Membershin saves money.
$\begin{array}{ll}\text { There's no need to worry } & \text { trauma, too. For only } \$ 350 \text { per year, a } \\ \text { when trouble strikes because MedStar's } & \text { MedStar Saver+Plus membership } \\ \text { industry leading health heroes arealways } & \text { shields you from out-of-pocket costs } \\ \text { around the corner to swoop in and take } & \text { yourinsurancedoes notcover } \boldsymbol{A N D} \\ \text { care of your urgent medical needs. Give your family complete peace

11

## 2022 High-Performance EMS Benchmarking Study

 Part 1: System Demographics and Operational PerformanceThe AIMHI benchmarking studies perform a fundamental service to EMS by providing tools through which we can continue to learn about the successes and opportunities of today's emergency care system, ensure its progress and growth, and work to expand the reputation and efficiency of EMS nationally and internationally. The 2022 study is the latest addition to the body of knowledge required for effective service delivery and improvement.

Since the first study in 1998, AIMHI has developed valuable evidenced-based studies to share clinical, operational, and economic data across EMS systems serving diverse geographic and demographic communities. Our goal is to provide the EMS community, elected and appointed officials, and regulators with tools, data, and outcomes that demonstrate the value of high-performance, high-value mobile healthcare as the initial point of entry to, and the safety net of, the healthcare continuum.

| Agency Name | Organizational Structure |
| :--- | :--- |
| Emergency Medical Services Authority (Oklahoma City, OK) | Public Utility Model: Self-Operated |
| Emergency Medical Services Authority (Tulsa, OK) | Public Utility Model: Self-Operated |
| Mecklenburg EMS Agency (Charlotte, NC) | Public Utility Model: Self-Operated |
| Medic Ambulance (Solano, CA) | Private |
| MEDIC EMS (Davenport, IA) | $501 c 3$ |
| MedStar Mobile Healthcare (Fort Worth, TX) | Public Utility Model: Self-Operated |
| Metropolitan EMS (Little Rock, AR) | Public Utility Model: Self-Operated |
| Niagara Emergency Medical Services (Region of Niagara, CA) | Third Service Model |
| Northwell Health Center for EMS (Syosset, NY) | Health System Based EMS Agency |
| Novant Health New Hanover EMS (New Hanover County, NC) | Hospital-Based |
| Pinellas County EMS - Sunstar (Pinellas County, FL) | Public Utility Model: Contracted |
| Pro EMS (Cambridge, MA) | Contractor |
| Regional Emergency Medical Services (Reno, NV) | Public Utility Model: Self-Operated |
| Richmond Ambulance Authority (Richmond, VA) | Public Utility Model: Self-Operated |

## What Is High Performance/High Value EMS (HP/HVEMS)?

HP/HVEMS systems share key features of system design rarely associated with less cost-effective systems. Characteristics typically include:

- Sole provider: All emergency and non-emergency ambulance services are granted to a sole and often competitively selected provider for a specific population or service area.
- Control center operations: The ambulance provider has control of the dispatch center.
- Accountability: HP/HVEMS systems have performance requirements that can result in financial penalties or replacement of the provider when the requirements are not met. HP/HVEMS systems use and collect data regularly to meet these performance requirements, which has allowed for the ability to collect data for the HP/HVEMS Market Study.
- Revenue maximization: HP/HVEMS systems incorporate the business function into their operations, resulting in an understanding of the billing requirements, thus collecting all appropriate revenues from Medicare, Medicaid, self-pay and other third-party payors.
- Flexible production strategy: HP/HVEMS match scheduled resources with predicted changes in response demand based on time of day, day of week and time of year.
- System Status Management (SSM): HP/HVEMS systems use the dynamic deployment techniques to position resources in anticipation of when and where ambulances will be needed.

## Key Metrics \& Takeaways

- $36 \%$ of the HP/HVEMS systems have transitioned from an all-ALS ambulance deployment to a Tiered Deployment (ALS/BLS) to better match resources with emergency needs and enhance ALS provider utilization and experience.
- $64 \%$ of HP/HVEMS systems do not use Medical First Response on all calls, reserving MFR for calls with a higher medical acuity, based on EMD determinants derived through an accredited communications center.
o Across these systems, an average of $5 \mathbf{2}$ \% of EMS calls do not receive Medical First Responders.
- $61 \%$ of the emergency responses in the HP/HVEMS systems receive a lights $\&$ siren (HOT) response. o $9 \%$ of the patients transported to hospitals receive a HOT transport.
- The Median ambulance response time for high acuity responses in HP/HVEMS systems is $\mathbf{8}$ minutes, 41 seconds.
o The response time calculation begins at time call received in $42 \%$ of HP/HVEMS systems
- AIMHI Member agencies serve a combined population of 17.6 million people and a geography of over 14,000 square miles.
- Member agencies responded to 1.5 million emergency ambulance calls in 2021, transporting 996,080 patients for a transport ratio of $67.8 \%$.
- $100 \%$ of AIMHI member agencies hold at least one accreditation. $93 \%$ are accredited by the Commission on the Accreditation of Ambulance Services (CAAS) and 79\% of member dispatch centers are accredited by the International Academies of Emergency Dispatch.

## About the Academy of International Mobile Healthcare Integration

The Academy of International Mobile Healthcare Integration (AIMHI) represents high performance emergency medical and mobile healthcare providers in the U.S. and abroad. Member organizations employ business practices from both the public and private sectors. By combining industry innovation with close government oversight, AIMHI affiliates are able to offer unsurpassed service excellence and cost efficiency. www.aimhi.mobi | hello@aimhi.mobi | @AIMHI_MIH | www.fb.me/aimhihealthcare

## Table 1: EMS System Delivery Changes

| Agency | What was the change? <br> Emergency Medical Services Authority <br> (Oklahoma City, OK)Transitioned from a contracted provider to a self-operated PUM. <br> Changed from all ALS to tiered ambulance deployment. |
| :--- | :--- |
| Emergency Medical Services Authority <br> (Tulsa, OK) | Transitioned from a contracted provider to a self-operated PUM. <br> Changed from all ALS to tiered ambulance deployment. |
| Mecklenburg EMS Agency <br> (Charlotte, NC) | Changed response time goal for low-acuity medical responses. |
| MedStar Mobile Healthcare <br> (Fort Worth, TX) | Changed from all ALS to tiered ambulance deployment. |
| Niagara Emergency Medical Services <br> (Region of Niagara, CA) | Recent update to MPDS v13.3 Omega included a determinant-by-determinant review that <br> included linked hospital outcome data. <br> This data was used in to update response priorities based on information such as aggregate <br> 1- and 7-day mortality, number of ER interventions, length of stay, SCU admissions and <br> length of stay. |
| Pinellas County EMS - Sunstar <br> (Pinellas County, FL) | Changed from all ALS to tiered ambulance deployment. |
| Regional Emergency Medical Services <br> (Reno, NV) | Changed from all ALS to tiered ambulance deployment. <br> Additional further utilization of Nurse Health Line for low acuity call determinants. |

## Table 2: Medical First Response Utilization

| Agency Name | Percentage of calls with <br> Medical First Response (MFR) |
| :--- | :---: |
| Emergency Medical Services Authority (Oklahoma City, OK) | $46 \%$ |
| Emergency Medical Services Authority (Tulsa, OK) | $53 \%$ |
| Mecklenburg EMS Agency (Charlotte, NC) | $77 \%$ |
| MEDIC EMS (Davenport, IA) | $75 \%$ |
| MedStar Mobile Healthcare (Fort Worth, TX) | $70 \%$ |
| Metropolitan EMS (Little Rock, AR) | $40 \%$ |
| Novant Health New Hanover EMS (New Hanover County, NC) | $31 \%$ |
| Regional Emergency Medical Services (Reno, NV) | $40 \%$ |
| Richmond Ambulance Authority (Richmond, VA) | $40 \%$ |

## Table 3: HOT Vehicle Operations

| Agency Name | HOT Response \% | HOT Transport \% |
| :--- | :---: | :---: |
| Emergency Medical Services Authority (Oklahoma City, OK) | $36.7 \%$ | $8.4 \%$ |
| Emergency Medical Services Authority (Tulsa, OK) | $31.5 \%$ | $7.9 \%$ |
| Mecklenburg EMS Agency (Charlotte, NC) | $21.0 \%$ | $6.1 \%$ |
| Medic Ambulance (Solano, CA) | $79.2 \%$ | $4.2 \%$ |
| MEDIC EMS (Davenport, IA) | $73.9 \%$ | $13.7 \%$ |
| MedStar Mobile Healthcare (Fort Worth, TX) | $72.4 \%$ | $4.8 \%$ |
| Metropolitan EMS (Little Rock, AR) | $98.1 \%$ | $7.4 \%$ |
| Niagara Emergency Medical Services (Region of Niagara, CA) | $25.0 \%$ | $20.6 \%$ |
| Northwell Health Center for EMS (Syosset, NY) | $80.0 \%$ | $16.0 \%$ |
| Novant Health New Hanover EMS (New Hanover County, NC) | $68.8 \%$ | $9.4 \%$ |
| Pinellas County EMS - Sunstar (Pinellas County, FL) | $71.1 \%$ | $2.0 \%$ |
| Pro EMS (Cambridge, MA) | $100.0 \%$ | $0.0 \%$ |
| Regional Emergency Medical Services (Reno, NV) | $74.6 \%$ | $6.8 \%$ |
| Richmond Ambulance Authority (Richmond, VA) | $75.2 \%$ | $0.6 \%$ |
| Overall Average | $60.9 \%$ | $\mathbf{8 . 9 \%}$ |

## Table 4: Accreditations by Agency

# NOMINATION DEADLINE EXTENDED MedStar Seeking Special Kids for Trick or Treat Event 

Know a child who would like to go out on Halloween for Trick or Treat, but needs medical support to be able to do so?

For the $9^{\text {th }}$ year, MedStar is offering to take one or two children out for Halloween in a very special Fort Worth neighborhood. This program is designed for kids who might not normally be able to go trick or treating due to medical restrictions.

The child will be picked up at home, brought to a specially selected neighborhood in a fully decorated MedStar ambulance. The child and their family will be escorted through a specially selected neighborhood on one of our stretchers, with full medical support, until their goody bag is full!

To nominate a child for this event, contact Matt Zavadsky at MZavadsky@medstar911.org or by phone at 817-991-4487.

Nomination deadline is Tuesday, October $18^{\text {th }}$ Participation Guidelines:

- Date of event will be October $29^{\text {th }}$, between $6 p$ and $9 p$
- Child and parents should live, or be temporarily residing in the MedStar service area
o Children in a hospital, or other medical facility are eligible, and we will coordinate with the facility to determine feasibility.
- Child should be between 5 and 15 years old
- Child and parents should be willing to share their experience
 with media partners and sign a media release
- MedStar shall make the final determination of clinical appropriateness for participation

## About MedStar:

Responding to over 180,000 calls each year, MedStar Mobile Healthcare is the governmental administrative agency providing exclusive emergency and non-emergency ambulance services to over 1 million residents throughout Fort Worth and 14 other member cities. Established in 1986, MedStar is governed by the Metropolitan Area EMS Authority board of directors and is accredited by the Commission on Accreditation of Ambulance Services and the International Academies of Emergency Dispatch.

Tab E - Chief Human Resources Officer

## Human Resources - September 2022

With the completion of software implementations, the department has turned its full attention to recruitment, retention, and engagement. We have 10 planned NEOPs for the coming fiscal year and continue to plan engagement events and education for employees.

Turnover:

- September turnover - 1.52\%
- FT-1.48\%
- PT-1.96\%
- Year to date turnover -24.57\%
- FT-22.78\%
- PT-41.18\%

## Leaves:

- 30 employees on FMLA / 6.33\% of workforce
- 21 cases on intermittent
- 9 cases on a block
- Top FMLA request reasons/conditions
- FMLA - Parent (4)
- FMLA - Child (3)
- Internal Medicine (3)
- Mental Health (3)
- Bonding (3)

Due to the time and attendance software system change I am not able to provide a report on LOA and COVID hours. We are working on getting it set up and I will include them in a future board packet.

## Staffing

- 14 hires in September
- 154 hires FYTD

Tab G - Operations

## Metropolitan Area EMS Authority dba MedStar Mobile Healthcare

Operations Report- September 2022
The following summarizes significant operational items through September $30^{\text {th }}, 2022$ :

## Field Operations:

- September transport volume exceeded budget expectations by approximately $7 \%$.
- September call volume (responses) exceeded projections by approximately $13 \%$.

Field Ops Metrics

Emergent, P1-P3, Response Time Breakdown

| Priority 1 |  | Priority 2 |  | Priority 3 |  |

## Fleet/Logistics/Building Maintenace:

- HVAC projects are in process
- New ambulance units are arriving and being placed in service

## Special Operations:

- Currently in peak fall events season
- Completed 167 special events for the month of September 2022

## Mobile Integrated Health:

- Continued increase in MHP referrals from existing program partners.
- 1,983 clients are currently enrolled.
- September 2020 MIH Encounters
- Scheduled Visits: 416
- Unscheduled Visits: 27
- 911 Encounters on Enrolled Clients: 61
- Trained an additional CCP to assist with the increasing request for SCT services.
- Hired additional part time CCP and MHP team members to assist with being able to flex to meet increasing demands from contracted providers and SCT volume.
- Initiated hiring process for Mobile Health EMT.
- See Chief Transformation Officer report for ongoing program updates.

## Information Technology:

- Continued procurement process for replacing network equipment that has reached the end of its vendor-supported life cycle.
- Continued implementation of enterprise project tracking tool.
- Supported successful implementation of the CAD upgrade project.
- Ongoing support of transition to new timekeeping and scheduling software.

## Business Intelligence:

- Have hired two new programmer/analysts to support the growing demand for data analysis. Christine Cope, AS, has been with Medstar for 20 years and is transferring from Communications. Jennifer Fee, MS, comes to us after a career of teaching and earning a master's in bioinformatics.
- Reprioritization project in tandem with Dr. Vithalani. Moving past coding/organizational phase to tangible analysis and pre-deployment review.
- Evaluating best approach for system optimization in lieu of pending response time / priority changes.
- Presented lights and siren research poster to an audience of 3,000 people at EMS World with good reception.
- Ad hoc reporting as requested.

## Communications:

- Luvinia Warren has been selected for the Communications Training Coordinator position. She will move into the position in a few weeks after her replacement has been trained.
- Interviewing internal candidates for two (2) Communications Supervisor positions.
- LOGIS v4 deployed to the live environment on 10/5.
- Sixteen (16) controllers in various stages of training
- Focusing on meeting Organization Standards: 90\% of 9-1-1 calls answered within 15 seconds or less; 95\% of 9-1-1 calls answered within 20 seconds or less

| Month | Total \# | $\# 911$ | Average | $\% 911$ Answered |  |
